

Think of a **decorative** halogen fixture. Think . . .

# GLASS COLLECTION

## State-Of-The-Art Halogen Lighting

### Think Of A New Alternative

to Alzac reflector downlights and traditional baffle style folk lights. Cool and luminous yet contemporary and traditional, brilliantly fusing fire and ice.

### Think Freedom Of Expression

A sophisticated glow of heat resistant glass -- engineered in translucent clear, blue or rose.

### Crafted To Perfection

Think of crystalline, frosted rings that create soft, subtle glows on the ceiling -- adding style and mood.

### Once You Have Experienced

the innovative **Glass Collection** for yourself you will love it. If you're an interior designer, you'll rave about the total flexibility it gives you.

### Retailers Value Glass Collection

For its attractive design and performance, giving their merchandising displays a serious edge in today's highly competitive market.

### Home Owners Appreciate

the enhanced value of their property -- the warm ambiance welcoming them every night.

### Real Energy Savings

### Simple Installation

Easy aiming, rotation and tilting. Providing appropriate light levels for general lighting. Accent lighting. Wall washing.

### Unparalleled Architectural Scope

and design . . . Affordable!

### Glass Collection.

For Non-IC applications
